Firm & Investment Strategy Overview

Mittleman Investment Management, LLC (“MIM”) is an SEC-registered investment adviser that provides discretionary portfolio management to institutional investors and high-net-worth individuals. MIM pursues superior returns through long-term investments in what it deems to be severely undervalued securities, while maintaining its focus on limiting risk. MIM seeks to mitigate risk, which it defines as the probability of the long-term loss of capital, by investing in businesses that are proven franchises with durable economic advantages, evidenced by a well-established track record of substantial free cash flow generation over complete business cycles, and only when the very low valuation at which the investment is made provides a significant margin of safety. MIM employs a concentrated, long-term investment approach, typically holding between 10 and 20 positions. Investments are made globally, with the historical average of foreign holdings representing approximately 40% of the strategy. Unconstrained by capitalization parameters, MIM gravitates towards smaller market cap companies where the firm has identified the greatest disparities between market price and its proprietary estimate of fair value. Large cap companies are also considered, but only when priced attractively enough to warrant inclusion in the strategy. MIM believes its ability to go wherever the best risk/reward ratios appear to be available, in companies small and large, domestic and international, is a distinct advantage over other investment managers which operate within a more restrictive investment universe.

IMPORTANT DISCLOSURE
 Mittleman Investment Management, LLC ("MIM") claims compliance with the Global Investment Performance Standards (GIPS®). MIM is an SEC-registered investment adviser. The composite includes all fully discretionary separately managed accounts which follow the firm's investment strategy, including those accounts no longer with the firm. MIM's value-oriented strategy is to invest in a concentrated portfolio of primarily common stocks, unrestricted as to market capitalization, of both domestic and international companies. The U.S. Dollar is the currency used to express performance. Performance presented prior to January 2006 occurred while the Portfolio Manager was affiliated with a prior firm and the Portfolio Manager was the only individual responsible for selecting the securities to buy and sell. Past performance is not a guarantee of future results. Margin is not an active part of the management of the accounts but may be used on an opportunistic basis if permitted by the client. Investments made by MIM for its clients differ significantly in comparison to the referenced indexes in terms of security holdings, industry weightings, and asset allocations. Accordingly, investment results and volatility will differ from those of the benchmarks. For more information or for a copy of the firm's fully compliant presentation and the firm's list of composite descriptions, please contact us at (516) 686-6200.
